

Landis+Gyr Smart Water: The easy way of managing water metering.

Connectivity, meter reading and data management
in a single end-to-end meter reading service.

Water utilities shouldn't have to wrestle with complexity when it comes to setting up and managing their water metering network.

Rising costs, regulatory compliance, security threats and integration challenges are getting in the way of what matters most – delivering safe, reliable water service.

Landis+Gyr Smart Water solution takes the headache out of water metering. One simple, seamless service that

connects your smart water meters, collects data, and integrates with your business systems and apps.

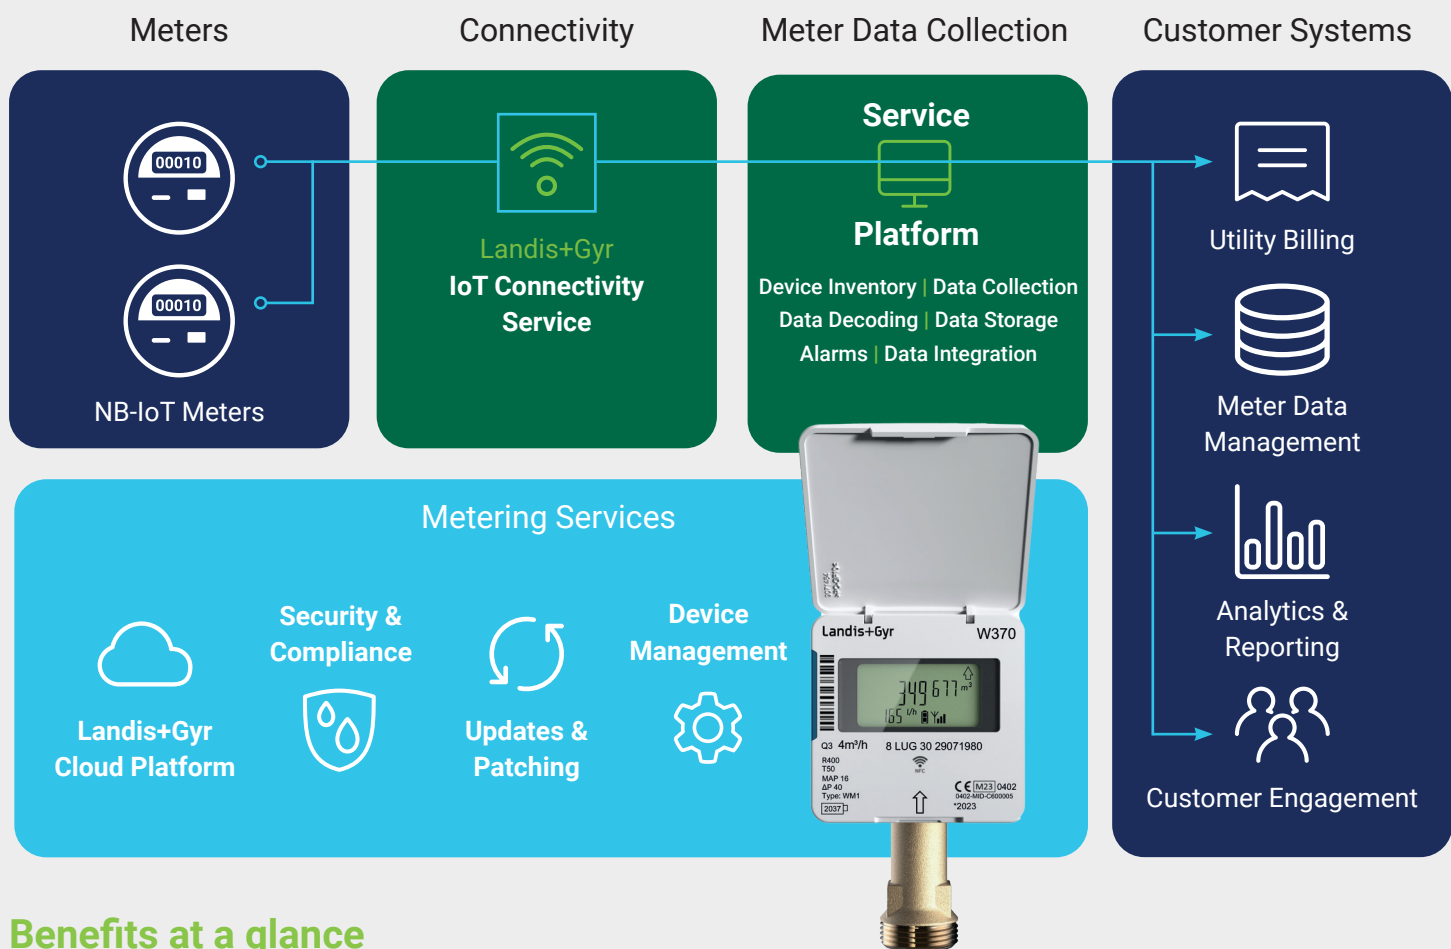

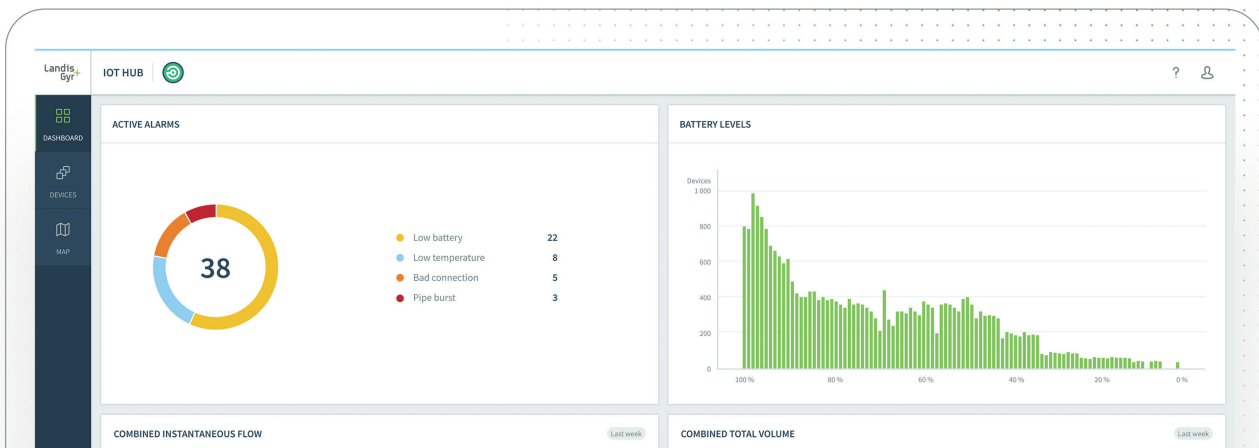

We handle the heavy lifting: setup, device management, security, and updates, so you can monitor water consumption effortlessly and with complete confidence.

Landis+Gyr Smart Water solution simplifies smart water metering, enabling organizations to focus on serving customers, not managing technology.

Landis+Gyr
ULTRAWATER® W370 &
W270 Smart Water
Meters

- **Connectivity:** Leveraging NB-IoT technology, we provide great indoor coverage, high-reliability, cost-efficiency, and carrier-grade security.
- **Data Collection & Export:** Easy integration of metering data with any system, such as billing or analytics.
- **Service Platform:** With our Landis+Gyr IoT Hub, we enable device monitoring, data visualisation and connectivity issue detection. Through an intuitive interface, users can easily browse the device inventory, review and download metering data.
- **Focus on your business:** Device onboarding, configuration, security and updates – all managed by our experts so you can focus on using the data.

Benefits at a glance

- **Fast Deployment:** Get up and running quickly with our pre-built Smart Metering Infrastructure.
- **End-to-End Solution:** Connectivity, device management and data platform included in a single contract.
- **Transparent Pricing:** Simple, scalable pricing based on the number of connected devices, with no hidden costs.
- **Open Platform:** Connect both Landis+Gyr and 3rd party meters.
- **Top-tier Security:** We keep your data protected in full compliance with regulatory demands.

Let's Build a Brighter Future Together.

Since 1896, Landis+Gyr has been a global leader of energy management solutions. We've provided more than 3,500 utility companies all over the world with the broadest portfolio of products and services in the industry. With a worldwide team of 1,300+ engineers and research professionals, as well as an ISO certification for quality and environmental processes, we are committed to improving energy efficiency, streamlining operations, and improving customer service for utility providers.
